Rosa's French Action Flashcards

Learning objective: I can identify and use simple French action verbs to describe what I do.

About 15 minutes. Grown-up tip: Practise the actions physically while saying the French words to help remember them better!

Use these cards to practise your French. Look at the front, say the French word out loud, and check the answer on the back! Example: If the front says 'manger', the answer is 'to eat'. Remember that 'je' means 'I'.
