Finn’s Geography Adventure: Human vs Physical

Learning objective: To identify and describe the differences between human and physical geographical features.

Join Finn the dolphin on a journey across the land! Read each question carefully and decide if the feature is something found naturally (physical) or something built by people (human).

Answer Key: 1. A (Physical); 2. True; 3. Human; 4. B (Physical); 5. False; 6. Human; 7. Physical; 8. A (Physical); 9. True; 10. Human.

Word bank: Physical · Human · Mountain · Bridge · River · Village · Volcano · Road

1. 1. Is a deep, blue ocean a physical feature or a human feature? A) Physical* B) Human (1 mark)

2. 2. True or False: A motorway is an example of a human geographical feature. (1 mark)

3. 3. If you see a skyscraper in a busy city centre, is that a physical or a human feature? (1 mark)

4. 4. Which of these was NOT made by humans? A) A shopping centre B) A forest* C) A tunnel (1 mark)

5. 5. True or False: A river is a human feature because people swim in it. (1 mark)

6. 6. Is a railway station a human feature or a physical feature? (1 mark)

7. 7. Give me one example of a physical feature you might find at the seaside. (1 mark)

8. 8. Which of these is a natural physical feature? A) A mountain* B) A house C) A pier (1 mark)

9. 9. True or False: A farm is a human feature because humans clear the land to grow crops. (1 mark)

10. 10. Is a lighthouse a physical feature or a human feature? (1 mark)

Draw: Draw a picture of a coastline. Include at least two physical features (like cliffs or waves) and two human features (like a lighthouse or a small harbour). Label your drawings!

Extension challenge: Imagine you are building a new town. Write a list of three physical features you would like your town to have nearby, and three human features you would need to build so people can live there comfortably.
