Max’s Kindness Advent Calendar

Learning objective: I can understand how small acts of kindness help our community and build positive relationships.

About 15 minutes. Grown-up tip: Ask your child about a time someone was kind to them and how it made them feel.

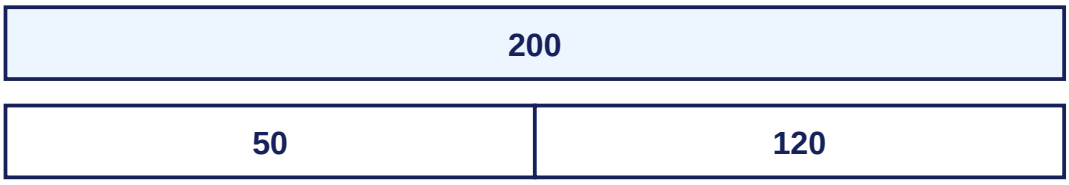

In December, Max the monkey is starting a Kindness Advent. Instead of eating chocolate, he does one kind deed every day. Read the questions below to help Max think of ways to share happiness. Example: If someone drops their pencil, a kind act is helping them pick it up.

Word bank: Community · Generosity · Support · Thoughtful · Empathy

1. Max wants to help a neighbour in his village. Name two small, kind things Max could do to help someone who is elderly. (2 marks)

2. Sophie is feeling sad because she lost her favourite hair clip at break time. Explain how you could show empathy to Sophie. Give a reason for your answer. (2 marks)

3. Kofi has £2.00. He wants to buy a small gift to cheer up a friend who is ill. If a card costs 50p and a packet of stickers costs £1.20, does he have enough money? Show your working. (2 marks)

4. Why is it important to be kind even when nobody is watching you? Use your own ideas to explain. (2 marks)

5. Create a 'Kindness Goal' for your own classroom. What is one thing you will do this week to make a classmate smile? (1 mark)

Draw: Max the monkey holding a wooden advent calendar with 24 numbered doors, standing in a snowy park in the UK.

Extension challenge: Design your own 5-day Kindness Advent plan. List one kind act for each day, such as 'holding the door open' or 'giving a compliment'.

I did it! Name: _____ Date: _____
